

Week of November 2 - November 6

MRS. SALAS  
CLASS NEWS

## A look ahead..

We are looking forward to presenting our natural hazard projects on Monday. Everyone has been hard at work designing a structure that would protect against their natural hazard! Next, we will be moving onto what happens to plants and animals when the environment changes, either by natural hazards or human impact. Through nonfiction texts, we will notice how authors organize this information. In math, we will continue working on division using a variety of strategies including relating it to multiplication.

## Upcoming Dates:

- No School 11/6
- Late Start 11/11
- No School 11/12
- Woodland Day 11/13

## Conferences

Conference times were sent out last week. Please sign up for a time at your earliest convenience.

## Book Fair

The digital book fair starts Monday. Be on the lookout for more information in MV's newsletter!

## Shout Outs!!!!

Great work to Tyler for extending his learning about his natural hazard by creating his own volcano and sharing it with the class! Way to go!
